Rock Plants and Seeds - - - - - Lilies Trees and Shrubs Ferns, Perennials

ADDRESS
MRS. CLARICE NYE
Prospect, Oregon
Crater Lake Highway Forty Miles
from Medford

Advice About Rock Gardens

We are glad to help with any problems at any time, and can heartily recommend "My Wild Garden" and "Taming the Wildling" by Herbert Durand, and "The Rock Garden" by Lousie Beebe Wilder, as best authorities in Eastern United States.

For information as to the value for garden use of western native plants, read "Western American Alpines," by Ira N. Gabrielson. If you would like to climb our mountains and see our lovely wildlings in their homes, but cannot do so, take a trip at second hand with Dr. Gabrielson. You will find him most delightful company, and through his appreciative eyes will be able to enjoy and estimate them at their best. Order from me. Price \$3.50.

"Hardy Californicans," by Lester Rountree is equally valuable and interesting. It brings sixty-four photos of unusal native beauties, many of them offered in this catalog. Hundreds more are described and their real value and needs told by one who knows. Order from me. Price \$3.50.

"Rock Garden and Alpine Plants," by Henry Corrovon, of Switzerland, is undoubtedly one of the best in the world, and at the new low price should be had by all. Price \$3.00. Order from me.

Oregon Wild Flowers

Seeds—Seeds of many varieties can be furnished at 25c per packet. In ordering seeds, please list some substitutes that may be sent in case of shortage. Plants in this list are so rare that the supply is uncertain. Small packets, 5c.

Numbers (00) indicate height by inches.

The price for a dozen is ten times the price for single plants. Half dozens are sold at dozen prices. All are packed free of charge, and post-paid.

Our prices are cash with order, and we will send C. O. D. to reliable persons.

Small orders receive the same attention as large ones. Do not hesitate to write us if you only wish one item. Also, we will be interested to hear about the wild flowers growing in your locality. We make exchanges and buy desirable wild plants and seeds. We give a discount on large orders from parks, colleges, etc., and a trade discount to dealers. Write for wholesale prices.

 $\operatorname{Address}$ all orders to Clarice Nye, Prospect, Oregon.

Native Plants Suitable for Dry Garden in Sun unless Otherwise Stated

Ea	ach
Anemone Deltoides, purest white colors for shade	.15
Baldensis, a beautiful light blue	
alpine, (10)	.50
Lyallii (4) pastel shades, requires	
acid soil in shade	.25
Occidentalis, Chalice Cup, milk white,	
ferny leaves	.50

Oregana, white with blue tints	
Acid soil in shade required	.40
Pulsatilla, pasque flower	.35
Abronia latifolia, yellow sand verbena, creeper from sea beach, Umbellata, pink, seeds of both.	
Actea spicata var. arguta (30), nice foliage white fl. and red berries in fall. Shade best	.35
Apocynum pumilum, pink fl. and leaves turning yellow in summer (8)	.25
Aquilegia formosa, scarlet and gold	.25
Long spurred hybrids, mixed colors	.25
Dwarf rock garden species, mixed	
Hoop petticoat, double in many colors	
Arabis Lyallii, pink fl. for sh. rocks	.25
Purpureus, deep pink, very dwarf	.25
Armeria artica, deep pink (6)	
Arenaria caespitosa, a lovely mossy ground cover with tiny white fl.	
Aster alpina, not native, large blue	
Native, blue (6), (12) purple (15)	.25
Aster New Dwarfs not native,	.30
Countess of Dodley, bright pink	
Lady Henry Maddocks, light pink	
Lilac Time, lovely soft lilac	
Marjorie, bright rose pink	
Snow sprite, semi-double white	
Victor, clear lavender blue	
Mauve Cushion, only six inches high	00
Aster Michaelmas DaisyFeltham blue, Novae Angliae, violet purple	.20
Perry's White, small stars with yellow center	
Mrs. Raynor, reddish; St. Egwin, pink	
Very large blue and semi-double purple	
Native blue from Oregon sea coast	
Arenaria Montana, close gray tufts with white	
flowers in early spring	.20
Ajuga reptens rubra, red leaves, blue fl.	.15
Agrostemma coronaria, mullen pink, downy	
leaves and deep rose purple fl. (15)	.15
Asclepias tuberosa, orange Butterfly weed	.25
Speciosa taller, with white leaves and pink	45
flowers, not so showy (36)	
Antennaria rosea, flat gray leaves, pink fl. (3)	
Asarum caudatum green leaved ginger also listed	.20
with the bog plants	.25
Hartweggi, mottled leaved ginger, sh.	.25
Lemmonii, similar but better	.35
Astragalus purshii var. tinctus, a desert pea that	
makes a little flat mat of pretty leaves	
decked with purplish red flowers. Later	
pods are covered with dense wool and on	
opening like a black beak with the shiny	
seeds like eyes appear like birdlings in a	
nest. Called wolly lambs. Seeds only.	
Artemesia abrotanum, Old Man, finely cut foliage, pleasantly scented (18)	25
ide C. Dicascilliv Sucilea (10)	
Artemesia species, name not known (18), stiff	.20

Boykinia elata and major for moist shade	.20
Brunella vulgaris (6) deep lavender	.15
Atropurpurea, deep purple	.25
Balm, Mountain, Eriodictyon Californica, called	
by the Spanish Yerba Santa. Dried leaves	F0
per oz. 15c; roots	.00
Baim, Monardella, scented leaves and pretty lavender flowers	15
Buckwheats, see Eriogonum	.10
Callirhoe involucrata, trailing poppy mallow, a	
beautiful vine that will cover a space four	
or five feet across in any good situation	.25
Calamintha alpina, not native but a very pretty	0.5
plant with purple fl. (6)	.25
that begins blooming in July and continues	
all season	.25
Yellow to rose, less than a foot high	.25
Calandrina umbellata, needs dry soil, a crimson purple flower opening in the afternoon (6).	25
Calypso borealis (bulbosa) Fairy slipper, a beau-	.20
tiful pink orchid found only in shady woods.	
Soil and moss with bulb	.25
Campanula Scouleri, (4) light blue lily shaped bells, for woodsy banks	25
Species, probably a variety of the above but	.40
much more free blooming. Our name for it	
is Multiflora. Seeds.	
Rotundifolia, from Washington State	.15
smaller from Siskiyou Mts. (4)	.35
Castillija mineata (10) Indian Paint Brush	
showy in very dry situations in sun	.15
Carum Oreganum, white lacy flower (15), tubers prized for food by Indians	115
Chrysanthemum leucanthemum, white daisy	. 1.15
with golden center, hardy and long bloom-	
ing (15)	
Coptis lacinata, yellow flower with varnished fern leaves, pretty in dry woods (5)	25
Cornus Canadensis, bunch berry (4). This is	.20
very pretty with its white Dogwood flower	
and red berries but is hard to grow. Re-	05
quires acid leaf mold near water in shade Corydalis caseana, white flowers, ferny leaves	.20
Aurea, yellow,	.25
Cotyledon Californica, thick leaved rosettes	.25
Oregana, larger and whiter, neither hardy	05
for hard freezing, found on sea cliffs	.20
a tall, coarse plant (25)	.25
Cypripedium Californica, a bog orchid with	
many cream white flowers, less finicky than these following but requiring moisture	50
Montanum, large pinkish ladyslipper, shade	.50
Fasciculatum, small pink and brown fl. (8)	
Darlingtonia Californica, the beautiful Western	
Pitcher plant. This is very desirable but difficult to grow. I am told it succeeds if set	
where it can have a constant supply of water	
containing ammonia25 to 1	.00

Delphinium Andersoni, blue. Seeds only (24).
Columbianum, a beautiful deep blue (12)
Menziesii, deepest purple blue with white
bee and spotted leaves (6)
Nudicaule, orange to red (18)
Parryii, blue, seeds only (24)
Parishii, white to purple. Seeds only
Scopulorum, very tall, purple blue, for moist
soil in shade
Dentaria Californica, very early bloomer, white
bell shaped flower round dentate leaf (5)
called Spring Beauty here
Macrocarpus, larger, from Siskiyou Mts15
Tracyii, lavender with purple leaves
Dicentra Formosa, plumy bleeding heart, beauti-
ful foliage
Oregana or Glauca, silvery leaves and cream.
f'owers with purple tips
Douglasia laevigata, cutest alpine
Digatalis, (4 to 6 feet) Fox Glove, many colors25
Dodocatheon Alpina, (6) prefers moist situation .50
Hendersonii, (6) a beautiful rose to crimson
primulacae, blooming very early in the
spring. Good in the rock garden
Jeffreyii (12) a later bloomer called Sierra
Shooting Star, light pink
Epipactus Gigantea, for moist shade
Erigeron Radicatus, (2) deep blue or purple, free
blooming
Compositus Var. trifidus, (4) white flower35
Folicosus var. compositus, (6) light blue
Salsuginosus, (10) large Alpine daisy
Glaucus, very dwarf, large flowered
Species from the coast, covered with large
blue flowers in autumn, similar to Michael-
mas Daisy
Evening Primrose, see Oenothera
Eriogonums are fine for the rock garden. Dry
situation. Seeds best as they are hard to
transplant. Flowers are in clusiters and
dry perfectly for winter bouquets. Dry
sunny sit.
Compositus, cream white in four to six inch
clusters. Seeds only.
Douglasi, yellow flower. Plant, a fine thick,
neat, gray white foliage. Seeds only.
Nudum, (18) white flower on slender stem
Sulphureum, Same but yellow
Umbellatum, (6) large yellow flower
Species variety of above, red flowers. Seeds
only.
Ovalifolium (3) everblooming alpine pink50
Species. Wild Pink Buckwheat, a beautiful
late annual. Seeds only.
Eriophyllum
Ianatum, green foliage, white beneath
Ceaspitosum, (8) Oregon Sunshine, yellow
flower, white foliage
Species, (4) felty white foliage, Alpine
Erysinum aspernum, (12) Western Wall Flower,
yellow

Ferns

Ferns
Very dwarf ferns suitable for rock garden. The roots should have a nice pocket of soil well protected by a large stone to
conserve moisture and thus they will face
full sun. Chelianthes Gracillima, (5) lace fern, dainty,
clump
Cryptogramma Acrostichoides, (3) parsley fern
Gymnogramme triangularis gold fern (6)
Woodsia Oregana, (5) very dainty and fragile. Drys down in summer, reappearing in early spring
Lomaria Spicant, the Deer fern for moist shade
Pel!aea densa, the daintiest and also the hardiest dwarf fern
Filin-fragilis, a delicate little beauty, a bit larger than Woodsia Oregana
Polypodium Occidentale, licorice fern, pre- fers a mossy stone for a home
Larger Ferns
Polystichum Lonchitis, Holly Fern, a lovely evergreen fern for shade only
Pteris aquilina var lanuginosa breaken, for a shady spot. This makes a tall background
Dryopteris Arguta, (18) evergreen shield fern
Asplenium felix-foemina, lady fern, moist shade. Each
Woodwardia Radicans, great chain fern, very large, requires moisture and shade. Each
We have many other nice ferns not yet classified Write us your wants.
Fragaria, wild strawberry from beach, glossy leaves, red runners, nice berries
Wood strawberry, large flowers
Gentiana Affinis, a very nice little gentian with very dark blue flower, freely borne, moist soil
at one time50 Our name for the above is Multiflora for its freedom of bloom
Nye's New Florenciana, a fine variety we have been unable to find described. It is a lovely deep dark blue and likes a black
bog soil by a mountain brook
Orfordii, (24) a taller sort with several nice, medium blue flowers

er large purple pink (25)	
Richardsoni, large pure white (24)	
Gilia aggregata, scarlet gilie flower or trumpet phlox, nice dwarf cut leaved plant that runs up to three feet with many bright but	
dainty flowers, the second year (8-20)	
nearly like Phlox Douglasi	
Nuttallii, White, night blooming	1
It is a desert plant.	
Goodyera Menziesii, mottled green and white leaves, shade	
Gormania Watsoni or obtusatum (6) white flow-	
er, a plant very nearly related to the	
Sedums and as good for dry or moist rock	
work)
Rhodiola, or laxa, red flowered. Plant very	
nice	3
damp-lover. Blooms very early	
ers, begonia-like leaves which color nicely25	
Glabella, green leaves, good for dry rock work .25 Hulsa nana, (4) sun flowers large as a dollar	
with ruffled hairy leaves. Sand in full	
sun on mountain tops. Seeds only. Irises. Our native irises should have the care	
of any fiberous rooted plant. Are not so	
hardy, as those with large rhizones. After	
becoming established they will endure as	
much hardship as ordinary perennials. Bracteata (12) Yellow, heavily veined with	
much hardship as ordinary perennials. Bracteata (12) Yellow, heavily veined with maroon. Leaf long, deep green	
much hardship as ordinary perennials. Bracteata (12) Yellow, heavily veined with maroon. Leaf long, deep green	5
much hardship as ordinary perennials. Bracteata (12) Yellow, heavily veined with maroon. Leaf long, deep green	5
much hardship as ordinary perennials. Bracteata (12) Yellow, heavily veined with maroon. Leaf long, deep green	5
much hardship as ordinary perennials. Bracteata (12) Yellow, heavily veined with maroon. Leaf long, deep green	5 5
much hardship as ordinary perennials. Bracteata (12) Yellow, heavily veined with maroon. Leaf long, deep green	5 5
much hardship as ordinary perennials. Bracteata (12) Yellow, heavily veined with maroon. Leaf long, deep green	5 5
much hardship as ordinary perennials. Bracteata (12) Yellow, heavily veined with maroon. Leaf long, deep green	5
much hardship as ordinary perennials. Bracteata (12) Yellow, heavily veined with maroon. Leaf long, deep green	5
much hardship as ordinary perennials. Bracteata (12) Yellow, heavily veined with maroon. Leaf long, deep green	5
much hardship as ordinary perennials. Bracteata (12) Yellow, heavily veined with maroon. Leaf long, deep green	5
much hardship as ordinary perennials. Bracteata (12) Yellow, heavily veined with maroon. Leaf long, deep green	5
much hardship as ordinary perennials. Bracteata (12) Yellow, heavily veined with maroon. Leaf long, deep green	5
much hardship as ordinary perennials. Bracteata (12) Yellow, heavily veined with maroon. Leaf long, deep green	5
much hardship as ordinary perennials. Bracteata (12) Yellow, heavily veined with maroon. Leaf long, deep green	5 5 5
much hardship as ordinary perennials. Bracteata (12) Yellow, heavily veined with maroon. Leaf long, deep green	5 5 5
much hardship as ordinary perennials. Bracteata (12) Yellow, heavily veined with maroon. Leaf long, deep green	5 5 5
much hardship as ordinary perennials. Bracteata (12) Yellow, heavily veined with maroon. Leaf long, deep green	5 5 5
much hardship as ordinary perennials. Bracteata (12) Yellow, heavily veined with maroon. Leaf long, deep green	5 5 5
much hardship as ordinary perennials. Bracteata (12) Yellow, heavily veined with maroon. Leaf long, deep green	5 5 5

Tenax. This is one of our best as well as	
most varied in color coming from white to	
deepest blue and rarely in lilac and or-	
Thompsoni. This is a lovely little thing of-	
chids, falls ruffled	25
	20
fered by others as a color variation of	
I. Innominata. We found it and offered it	
as I. delight but Prof. Thompson of Se-	
attle had beaten us; we hereby give him	
credit and he allows us to be the first	
to offer it under his name. It is a lovely	
orchid and forms a dense mat of narrow	
	1.00
Lineafolius. This is our own name for a	
very dainty little white iris with foliage	
only a line wide and very sparse. Stems	
wiry, six to nine inches high	1.00
Louisiana wild iris. These are very interest-	1.00
ing and have proved hards have Desert	
ing and have proved hardy here. Burnt	
orange and blue	
Versicolor, native blue iris from Wisconsin	25
Juniperus—see tree and shrub list.	
Leucocrinum montanum, pure white sand lily,	
clump	40
Lewisia-The evergreen varieties are often li	sted
as Orebroma and include all except redi-	Dood
viva and oppositifolia. These are our very	
best rock garden plants requiring good	
drainage and full sun, but not south ex-	
posure in California. Roots should have	
good protection under large rocks, and no	
irrigation. Coarse sand or broken rocks	
around the plant on surface to prevent	
damping off.	
Columbianum, has narrow leaves and small	
flowers. This bloomed the whole summer	
and fall in my rock garden. Flower white.	25
Columbianum var. rosea. Pink	25
	,20
Cotyledon, slender leaved rosette and white	
flower, veined pink	25
Finchii, one of the best. Have counted over	
five hundred florets from one plant in a	F0
season. Striped pink flowers	50
Nye's new variety of Finchii, still larger	
with a clear pink flower	50
Hecknerii, a fine new one with saw-edged	00
Heckhern, a line new one with saw-euged	0.5
leaves; flower pink striped with white	35
Howellii, leaves of the rosettes, ruffled and	
crested, flower deep rose striped with	
white	35
Ingramii, a variety of Howellii, equally good	d 35
Leana, narrow leaved evergreen plant flower	
a many blossomed spray	25
Nye's Dwarf Rose variety of above with larg-	
er semi-double flowers on short stem and	
of a fine bright rose	.50
Eastwoodiana, very similar to above but	
pure white. Very rare	50
Seeds of Eastwoodiana, 5c each	
Whiteii, of this group but has a longer	
spearshaped leaf	1 00
spearstapea teat	1.00
spearsmaped teat	1.00

Seeds, 5c each.	
Tweedyii, largest and one of the loveliest	
of this family. Very long blooming. Color,	
peach to salmon pink. Seeds 5c each. Large plants	
Smaller50 and	1 .75
New Varieties—The following are offered	
as Howellii var. Nelson Nye, large, in-	
tensely ruffled rosette with light creamy	
pink to almost white flowers on long	F-0
stems	JG, .
Millardii, large, handsome rosette of broad-	
ly spatulate leaves, slightly ruffled. Flow- er similar to L. Finchii and freely borne	50
	00
Longifolia, leaves very long, narrow and thick only slightly ruffled. Flowers lemon	
yellow white to creamy pink borne on	
extra long stems. Distinctly different	.50
Mariana is of the evergreen rosettes variety,	
foliage dark in color, flower yellow and	
white with some pink, very striped. It is	
almost everblooming with me	.50
Crenuata, a dwarf variety of Howellii with	
a fine ruffling all along the leaf and light	
creamy pink to white flowers	.50
Decideous Varieties	
Rediviva (3) Bitter root, the state flower	
of Montana. This looks more like a beauti-	
ful pink waterlily than a desert plant. It	
is the first of this lovely family of west-	
ern plants and was discovered by Mer-	
riweather Lewis and is named for him.	4 5
Thrives in dry soil	15
All the following need moist soil until after	
blooming. Brachycalyx, very pretty pure white	40
Seeds 5c each.	20
Nevadensis, smaller than above	15
Oppositifolia, similar to above but with flow-	10
ering stems about six inches high	15
Var. Richeyi, a new dwarf form more free	
flowering than the above	.25
Triphylla, very pretty but a well grown plant	
in bloom is not much larger over than a	
silver dollar. Pink flower	15
Lewisia Species, fine distinct new ones not	
yet named. While they are in stock	1.00
Linum, Lewisii, wild flax with deeper blue flow-	0.5
er than L. Perrene (20)	
Linneae Borealis var. Americana, Twin Flower	
Vine	.15
Lupinus Lyallii (4), the tiny gray-leaved Alpine	
which blooms the whole season. Seed is	2-
bestMinimus (9), very free blooming	
Ornatus (12), silver-leaved lupine	15 35
Arboreus the beautiful tree lupine with yel-	00
low flowers. Seeds only.	
Breweri, very dwarf with white leaves and	
nice blue flowers	.25

9	
Chamissonis, blue tree lupine. Seeds only Rivularis, a tall variety growing by streams has long bloom spike and handsome bronzy leaves, seeds and plants	
Annual varieties are good for broadcasting and seed prices will be gladly supplied. Lupines are very good for roadside planting and for cut banks. They are good to hold soil with their long roots and are very hardy.	
Lithophragma affinis, white woodland star	
Lutkea pectinata (4), make a lovely green mat in a moist spot in rocks. Spreads quickly35	
Monardella villosa, a free flowering mint (7)	
nice in the rock garden	
bloom (6)	
pure white and changes to pink. Sandy	
alkali soil, well drained in sun (6)	
Oxalis oregana, pinkinsh and pretty	
Oreobroma—see evergreen Lewisias Paeonia Brownii, (8) our only native peonia and a	
dwarf adapted to a rock garden; large red flower	
Parrya (4) a pink flowered deep rooting plant found where there is some moisture on the edge of the desert. Seeds only.	
Pedicularis densiflora. Indian Warrior. Very handsome but hard to tame	
Pentstemon Azureus (8), a lovely flower freely borne	
Cardwelli (6), shrubby creeper, very free	
blooming, flower brightest blue	
Cordifolius, climbing scarlet trumpeter. Seeds only.	
Corymbosus (18) shiny leaved shrub. Seeds only.	
Davidsoni, very dwarf, blue flower	
Glaber (8) larger flowered blue apline	
Jaffrayanus (6) deep blue alpine. Seeds only. Laetus, medium blue (10) very hardy	
Menziesi (6) shrubby evergreen creeper with	
small round green leaves and blue flowers .35 Rupicola (6) gray leaved shrubby creeper	
lovely rose crimson flowers, very nice	
Fruticosus (8) Lavender flowers	
Procerus, blue clustered penstemon	
blue flowers	
Tolmei, a tiny dwarf of the clustered group from our highest peaks	
Phlox adsurgens (5) evergreen creeper with	
beautiful pink flowers, for shade	
mat covered with lovely flowers	

Speciosa, slightly shrubby with sparce leaves but beautiful pink flowers	5
Species from Klamath County, doubtless a var-	J
iety of P. Douglasi but even more dwarf and compact with lovely pink and orchid flowers nearly hiding the deep green	
mossy plant (2)	60
Subulata atropurpurea, not native but very	
good. Vivid, bright pink. Both are creepers and make a presentable plant when not in bloom and a mass of color covering the entire plant when blossoming in early spring	25
Decussata, too tall for the rock garden as a rule	
but a very fine plant where height is right. Miss Lingard, pure white early bloomer with	
deep green shiny leaves (15)	25
R. P. Struthers, deepest pink with red eye 2	
Amy Gordon, named for my great grand- mother and from her garden. Florets are small but are in large clusters on four	
foot stems. Color white tinted orchid	25
Mixed seedlings, many colors, doz. \$1.00, ea	
Pipsisewa (Chimaphila) Prince's Pine, hardy for	
cold and drouth and good for naturalizing	
under evergreens. Flower pink. Evergreen	
and much used for decoration. Also medi- anal and can be supplied dried	25
Phoradendron, mistletoe, berries in season, pk	
and sprays for decoration, post paid,	
per lb	.25
Potentilla anserina, Silver Weed, creeper spread-	
ing by runners, fl. deep yellow	
nice yellow flowers (18)	
Gracillis, rather weedy but pretty (14)	50 50
Polemonium Carneum (10) largest flowered of our Jacob's Ladders and of a beautiful	.00
pink	.35
Confertum var eximium very dwarf blue or white flowered alpine cutie. Seeds only.	25
Occidentale (18) Needs a brookside place	.00
pine form very free flowering at home	
in dry rock work	.35
Ranunculus glaberimus (4), Sagebrush buttercup	
deepest yellow flower, very early	.25
Californicus (12) very early bloomerOccidentalis (8), better than last	.15
Creeping double, only a few inches high.	0
Spreads quite fast but very pretty. Not	
native	.10
Ribbon grass, bulbous, only grows 4 inches high and does not spread fast	15
Ribbon grass, tall, pink, white and green	.15
Rubus Nivalis, rare creeper requiring acid soil	.10
and deep shade. White flower, red ber-	
ries and crisp varnished leaves	.50
Romanzoffia Californica (6) for a mossy spot	15

long glaucous leaves and lemon yellow	
flowers with high purple brown center	50
Golden Glow, double golden yellow (72)	10
Purpurea, purple cone flower (36)	.25
Saponaria ocymoides, nice creeper with bright	
pink flowers. Spreads quite fast (4)	15
Double light pink fragrant (16)	.15
Both are not native.	.20
Shamrock, brown clover from Ireland	.15
Sidalcea Oregana, tall wild hollyhock	
Californica, dainty pink fl. (10)	
Saxafraga Eastwoodiana, moist, mossy rock-	.LU
work in shade. Very rare	75
Species with tiny brown notched leaves	
and pretty white flowers. Same situation	
as above	50
Mertensiana (6) white flower	
Peltata (36) with very large round leaves	120
suggesting the name of Umbrella Plant.	
Flower pink in large cyme, early in spring.	
Needs a water margin soil	.50
Tolmei, a dainty white flowered alpine with	
shiny beadlike foliage resembling a tiny	
sedum, found at base of glaciers. Roots	
very deeply so seeds are best.	
Sedum divergens, slender upright or reclining	
branching stems with beadlike leaves	.15
Var. Rattlesnake moss, larger than above	
both with starry yellow flowers	.15
Douglasi, tiny green rosettes, nice in winter	
running up 3 to 8 inches high with whit-	
ish flower. New plants form on stems of	
old and spread freely	.05
Radiatum, very similar to above but yellow	05
floweredObtusatum, thick whitish leaves turning	.05
bronzy in fall; flower white with red	
brown center. Sun, dry soil	15
Oreganum, close rosettes of bright green	.10
turning reddish, yellow flower, best in	
shade	.25
Nevadensis, larger gray green rosettes with	
angled ends of leaves, flower white, red	
center; sun	.25
Purdyii, flat shiny rosettes of brightest	
green connected by red runners, yellow	
flower. One of our cutest sedums. Must	95
have shade	.25
Species with equally flat gray green rosettes, larger and taller stems with starry yel-	
low flower, shade	25
Spathulifolium, a long name stretched to	
cover a multitude of variations. Often the	
last before and the two following. As we	
offer it the rosettes are small and white	
changing color with the seasons. Flower	
stems 2 to 4 inches and blossom nice yel-	
low. Very good in sun or light shade on	
dry rocks or any place	15
Woodii, very small with deeper yellow flow-	25
ers	20

Cape Blanco, very white larger rosettes with light yellow flowers from sea cliffs, sun	15
or shadeStenopetalum, low growing yellow flowered for sun	
Species, green, thick leaved, low growing with red margin in spring and silver line in autumn	
Species gray green blossom stems thickly leaved appearing to be a button string, flowers pink	
Sedums not native here Sedums acre, mossy green carpeter at blossom time, pure gold almost without a touch	
of green	.15
Acre minor, still smaller	.15
Altissimum treelike with yellow flower (8) Brevifolium, very tiny glaucous foliage	.15
Glaucum, tiny gray, bluish foliage, white flower	.15
Coccineum, white flower, leaves turn red Kamtschaticum larger (4) with orange flower	.15
Kamtschaticum variegatum, green and	
white leavesReflexum cristatum, upright grower, very	.15
oddSexangulare, a tiny angled one with yellow	.15
flowers	.15
Spectabile, Live For-ever, tall, pink fl	
Spurium, white flower, broad notched leaves Spurium coccineum, red flowered (6)	.15
Sempervivems, not native here, but a very fine	
group of plants for the rock garden. 'they do not compare favorably with Lew-	
isias from any point except hardiness and	
rapid increase but they are of the very best in those. Each	15
Arenaria, bright green, tinted red in winter	.10
Atrapurpureum, very large purple rosettes. Fimbriatum, slightly hairy.	
Laggeri, larger cobwebs or with pink flower.	
Pallidum, light blue green Tectorum, old stand by Hen and Chickens	
Violaceum, deep purple.	
The seven varieties\$. Twelve unnamed varieties\$	
Scutellaria angustifola is not the large plant	1.00
its name implies. It is only about six inches high, with a deep blue flower	15
Tuberosa, still small with light blue flower	.15
Silene Hookeri downy leaved fringed pink. Salmo:	n
pink needs deep soil among rocks	.25
Ingrami, sometimes considered a variety of	
S. Hookeri, but taller and very deep pink Californica, brightest red, very showy	.35
Sisyrinchium Bellum, blue-eyed grass, moist	
soilCalifornicum, similar, but vellow	

Grandiflorum, larger, satiny, spreading bens	15
of a beautiful crimson-purple, sun	.10
Grandiflorum var. with light pink flowers,	4-
sun	.15
Solidago elongata, golden rod	.15
Spergula, green mossy carpeter with white flower	.25
enragua umbellata nussy-naws, grows flat on	
the ground, flowers white to red, water-	
melon scented	.15
Multicaps, many headed or rosetted. Turns	
a nice reddish color	.25
Synthyris rotundifolia (3) Hope o'Spring, Sleigh-	
bell, or Spring Queen, all names of a well-	
loved little blue flower which comes first	
of all	.15
Reniformis (6), more showy light blue flower.	
Both plants very nice and like shade	.35
Sweetseri, var. of rotundifolia with long	
leaves and deep blue flower	35
Teaves and deep blue nower plant for dry	.00
Talinum spinescens, very dwarf plant for dry rock garden in sun. Flowers freely borne	
rock garden in sun. Flowers freely borne	25
and very dainty pinkTellima odorata, (12) large begonia-like leaves	15
Tellima odorata, (12) large begonia-like leaves	.10
Tiarella unifoliata, spray of tiny white flowers,	15
prefers moist shade	.10
Triontalic latifolia, pink star flower, a tiny pri-	15
mulaThymus, the old fashioned thyme not native	.LU
inymus, the old fashioned thyme not harry	
with us but so good we have adopted it.	10
Creeper in winter with dainty lavender fl	.10
Citriodorus argetteus silver and white (6)	25
Citriodorus aureus, green and yellow leaves	.20
Langinosus, wooley prostrate foliage, pink fl. Tradescantia virginica, blue, native in Wisconsin	.20
iradescantia virginica, blue, native in wisconsin	.25
Pale blue from Texas (9)	.25
Brevicaulis, pink (6)	.25
Valeriana sylvatica (9) pinkinsh, more dwarf	
and better than V. stichensis. We can sup-	25
ply both	.30
Vancouveria chrysantha, leathery leaves yellow	05
flowers	
Hexandra ferny leaves, white flowers	.25
Veronica incana, white downy foliage, deepest	0.5
blue flower (4) Not native here	
Viola adunca, blue, very long blooming	
Blanda, tiny white	
Brooksii, yellow, dry rock garden	
Chrysantha or Douglasii, deep yellow	.25
Cuneata, one of the cutest violets. White	
with blue eyes and back	.25
Hallii, sweet-scented purple and cream. Our	
finest native violet	
Palustris, pink and lilac, for wet meadow	.25
Pedunculata, Yellow Pansy, a very fine deep	
color	.25
Nuttallii, Downy Johnny Jump-up	.15
Praemorsa, similar to above, but a paler	
color and less free-blooming	.25
Occidentalis, long-stemmed white, for water	
margin only	
Glabella, yellow	
Lobata, yellow	
Sarmentosa, creeping, yellow	.15

Sheltonii, cut-leaved, yellow
Trinervata, a rare lavender variety from
Eastern Washington
Howelli, very near adunca, but of a deeper
blue and very long flowering
Langsdorffi, light blue for moist soil and
deep shade (6) very rare and lovely
Not native here
Alpina, deepest dark blue, pansy foliage
Papilionacea, nice purple blue, very thrifty15
Papilionacea var. priceana, white Peacock
violet
Prince of Wales, nice long stems on these
and the last two flowers very large, pur-
ple
Odorata, purple blue sweet scented
White sweet scented, early
Czar, nice single white, medium length
stems, very free flowering .25
Canadensis, white violet from Oklahoma
Veratrum, a tall (60) plant with broad leaves
and large cluster of white flowers belong-
ing to the lily family, seeds. Roots 1.00
Xerophyllum tenax, Elk Grass, Squaw grass, a
beautiful shiny grass with a flower like
a white plume three to five feet high.
Good plants
Zauschneria Californica, often called hardy fuchsia
Bright scarlet flower late, in bloom to
frost. This is a spreading vine that will cover a larger space in dry rock gar-
den
of scarlet and of upright growth
Makes a neat little shrublet in form.
Cana, (microphylla) smaller with very
downy leaves. For dry rock garden (8)35
downy leaves. For dry rock garden (o)
NATIVE BULB PRICE LIST
Bulbs of all kinds are best planted in the fall.
The small bulbs can be supplied by Sept. 1, and the
larger lilies by Oct. 15 or sooner.
Lilium, Washingtonianum, a very fine white to
pink lily. There are many variations to
this lovely lily and the most common is called the Mt. Hood Lily. We can supply
called the Mt. Hood Lily. We can supply
this and the larger form called Wash-
ingtonianum purpureum. Give them very
excellent drainage
Smaller bulbs
Washingtonianum minor, Shasta Lily, simi-
lar to above but with smaller bulbs and
slender stems, price each
Rubescens, the Redwood lily, white to pur-
ple
Kelloggii, pink. Good
Humboldti, a splendid yellow lily; prefers
well drained clay soil
Humboilti magnificum, even better; spotted
with red
Columbiana, a nice small yellow lily
Roezlii, crimson, stem slender, leaves crowded: wet soil

15
Roezlii, orange, similar to above
Pardalinum, closely related to the latter40
Parryi, a very nice yellow lily, requires moist soil; rare
Bolanderi, a small deep red lily suitable for the rock garden
Occidentale, extremely rare red lily; moist location
Seeds—We strive to secure all the seeds we can of
these and other native lilies. Price per pkt25 Frices on larger quantities on request.
BULBS FOR THE ROCK GARDEN
Dry Soil in Sun Unless Otherwise Stated
Allium Acuminatum (6), deep red
Falcifolium (3), large flower, bright red50
Mixed, many kinds and colors
Unifolium, lavender pink
Cernuum, nodding onion
Falcifolium var. demissum
Brodiaea congesta (16), blue flower
Coccinea (14), the firecracker flower1.00 Grandiflora (coronaria) harvest brodiaea.
This hardy midsummer bloomer rivals the
gentians for color. A wonderful blue
Lactea (12), white with green stripe
Laxa, large blue flower
Camassia Esculenta (12) light blue wild hya-
cinth
Leichtlini (16), deep blue hyacinth
Calochorte are the wild tulip of the west and are
more varied and charming than the tulips of Hol-
and. They will grow well under almost any garden conditions and are excellently well adapted to the
conditions and are excellently well adapted to the rock garden. Care should be taken to keep them
from irrigation in late summer as they are naturally
dormant at that time.
Doz. Calochortus Amabilis, deep yellow globe tulip50
A!bus, white Fairy Lantern, very dainty50
Amoenus, the beautiful pink fair lantern
Lilacinus, very dainty one without hairs,
moist soil
Mariposa types with large flowers on taller
stems.
Nitidus, hardy Mariposa from Idaho, lovely lavender, distinctly eyed (12-18)1.25
Macrocarpus, another hardy one, from East-
ern Oregon; will stand 20 degrees below
zero. Very tall plant, many lavender flow-
ers1.25 Vesta, white flowers usually tinted with
lavender and pink 1.00
Venustus Citrinus, yellow with black eye
Venustus El Dorado, colors varied from white to deep claret red; the very best60

Erythroniums are very easy to naturalize in woodsy conditions and are good in the blub bed or the rock garden. They are a charming lily and often but erroneously called Dog Tooth Violet. Herberd Durand calls the spotted-leaved varieties Trout Lily, and John Muir calls them Fawn Lily. Both names are good. They are not fussy as to soil or situation and come readily from seed.

Doz.
Giganteum, cream white
Grandiflorum robustum, bright yellow
Citrinum, cream turning pink, lovely
Johnsonii, large pink, very fine1.00
Hendersonii, lavender with maroon center
Klamathensis, light lemon with pink tips1.00
Parviflorum, light yellow
Pink beauty, a fine new one1.00
Fritillarias are at home in the rock garden.
All but Lancelota require well-drained
situation and it is good anywhere.
Doz.
Recurva or Red Mission Bell
Lancelota, green lily1.00
Pudica, yellow bell1.00
Trilliums prefer shade and moist soil. Good
among ferns in a shady corner.
Doz.
Sessile Chloropetalum, large white flower1.00
Petiolatum, Rubrum, opens red1.00
Ovatum, opens white and changes to red.
Many most beautiful shades in a clump at
one time. Large
Rivale, small and dainty. White specked
with maroon. This is good in the rock
garden as well as the moist shade1.00
garacii as well as the most shade

BOG GARDEN PLANTS

ROCK GARDEN LORE

For many years I tried with small success to grow wild flowers. Then I learned of the rock garden idea. I began at once with an apron full or rocks and a bucket of dirt. It was a success and a joy from the first. Drainage is one of the most essential points. Arrange your rocks to allow drainage and to conserve moisture. Always use acid soil for wood dwellers and alkaline for desert plants. If your soil is heavy or clay, use crushed gravel, broken crockery, brick or plenty of sand. Peat moss is highly recommended but I have not yet tried it. If you collect your own plants carefully note whether they grew in sun, shade, wet or dry, soil black, leaf mold or sandy and duplicate these in its new home in your garden. If you buy your plants, read the requirements given in the catalog and heed them. It is a great deal more fun to succeed than to fail. Wishing you all success I am,

Sincerely and Cordially yours,

Clarice Nye, Prospect, Oregon.
